

# FLIGHT OPERATION INSTRUCTION – 101

V1.0 Jan 07

## AS350 Compressor Washing Requirements

- Effective immediately the procedures as described in Turbomeca Arriel 1 Maintenance Manual (71-00-06, Cleaning, Washing and Protection of the Engine) are to be undertaken as described. A note is to be made on the Daily Flight Record identifying when these procedures have been completed and the type of procedure completed.
- These procedures should be undertaken in accordance with Turbomecas recommendations, but on ALL occasions when the helicopter has been exposed to the marine environment either at or near the coast, or once weekly and as otherwise described.
- A copy of the Maintenance Manual Section is included in the pilot ready-use file "AS350 Pilot Periodic Inspection Procedures".
