

FLIGHT OPERATION INSTRUCTION – 133

V1.1 Aug 08

Hastings Rescue Helicopter Service Survival Bag

This survival bag is to be placed aboard the helicopter whenever a mission is undertaken into remote areas. It contains essential equipment and items necessary to help up to five persons survive during an emergency situation.

Pilots and crew are to make themselves familiar with the contents of this survival bag.

Contents are to be checked annually for conformity with this checklist and any items due to expiry replaced.

The total weight of this survival bag is 13.5Kg.
