Static-Line Check
Crewmen

Name:_____ Date: / /

Position/Organisation:_____

This form is used to record static-line training, and static-line competency checks.

Aircraft Type ( ) Aircraft Rego (ZK-) Aircraft Time (. hrs) Total Lifts ( )

Item	Description	√ Covered	Comments
Responsibilities			
1	Static-line Crewmen/Helicopter Crewmen		
2	Training Requirements Satisfied		
3	Safety Equipment / Operational Briefing		
4	Human Factors / CRM / IMSAFE		
Limitations/Restrictions			
5	Limitations		
Flight Procedures			
6	Pre Flight Static-Line/Equipment/PPE/Buddy Check		
7	Environment – Confined Area / Mountain / Water		
8	Flight Path Selection – 3rd party considerations		
8	Hover Reference / Rotor Clearance		
9	Radio Procedures/Channels		
10	Patter / Aircraft Positioning		
11	Load stabilization techniques – Hover / In flight		
12	Downwash / Load Rotation		
13	Hand Signals		
14	Water Static-Line		
15	Risk Analysis		
16	Crew Co-ordination/Duties/Situational Awareness		
17	Post Flight Procedures/Static-line Care		
Special Equipment & Procedures			
18	Rescue Harness		
19	Maritime Floatation Harness		
20	Stretcher Preparation / Deployment / Extraction		
21	Multiple Person Extraction		
Emergency Situations			
22	Engine Failure/ Hydraulic Failure/ Tail Rotor Failure		
23	Master Caution Warning Lights		
24	Communication Failure		
25	Static-Line Entanglement		
26	Review of Static-Line Accidents		
27	Emergency Release Procedures		
Dangers			
28	Cables / Wires/Airflow / Power / Vortex		
29	Sun/Shadows/Static/Wind-chill		

Result: Competent ☐ Requires More Training ☐ Records Amended ☐
